

IDS B MOROCCO 2026

MARRAKECH
14 - 18 AUGUST 2026

INTERNATIONAL DENTAL
SUMMER BOOTCAMP

WELCOME

For three consecutive years, Marrakech has welcomed an exceptional community of young dental professionals eager to learn, connect, and grow. What began as a unique educational initiative has evolved into one of the region's most anticipated international dental experiences.

IDSP Morocco 2026 marks our most ambitious edition to date. Organized by **Ophelia International Dental Institute** in partnership with the International Association of Dental Students (**IADS**), the **Dental Club UIR**, and the **Club Social Dentaire**, this five-day immersive program will bring together 30 carefully selected participants – 15 international and 15 local – in an environment designed to foster both professional excellence and meaningful human connections.

Throughout the week, participants will take part in **hands-on workshops, interactive lectures, and clinical discussions** led by renowned clinicians and experts from various dental specialties. Beyond acquiring new knowledge, attendees will have the opportunity to exchange perspectives, challenge ideas, and build relationships with peers from different cultures and academic backgrounds.

And because learning extends far beyond the classroom, each day will be complemented by carefully curated **social and cultural experiences**, allowing participants to discover the vibrant spirit, heritage, and hospitality that make Marrakech truly unforgettable.

More than a conference, IDSB Morocco 2026 is a transformative experience designed to strengthen clinical confidence, expand professional networks, and inspire the next generation of dental leaders.

We look forward to welcoming you to Marrakech for an unforgettable journey of learning, collaboration, and discovery.

WHY PARTICIPATE?

CLINICAL DEPTH

Four intensive, hands-on workshops covering restorative dentistry, endodontics, implantology, and digital workflows. Each session is designed around real clinical scenarios with cutting-edge techniques and materials.

WORLD-CLASS FACULTY

Learn directly from recognized specialists and university educators who are passionate about mentoring the next generation of dental professionals.

GLOBAL NETWORK

Join a diverse community of dental students and young practitioners from over 60 countries. Build lasting professional relationships through IADS, the world's largest dental student organization.

RECOGNIZED CERTIFICATION

Receive an official certificate of participation endorsed by Ophelia International Dental Institute and the International Association of Dental Students (IADS).

MARRAKECH AS A CLASSROOM

Marrakech offers a unique blend of tradition and modernity. From the historic Medina to contemporary conference venues, the city itself becomes part of your learning journey.

ALL-INCLUSIVE EXPERIENCE

Your registration covers accommodation, daily meals, airport transfers, local transportation, the full social program, and all workshop materials. Focus on learning, we handle the rest.

PROGRAM

FRIDAY
14
AUGUST

ARRIVAL AND WELCOME

Airport transfers, hotel check-in at Ibis Palmeraie Marrakech.
Evening ice-breaking activities and International Cultural Fair

SATURDAY
15
AUGUST

DIGITAL ORTHODONTICS & 3D PRINTING

8:30 - 9:00: Breakfast

9:30 - 13:30:

Deep Margin Elevation – Daily Workflow (**Workshop**)

Dr Issam Maagouz

13:30 - 15:00: Lunch

15:00 - 18:00:

Third Molar Surgery: Evidence-Based Approaches for Everyday Practice (**Conference**)

Frenectomy (**Workshop**)

Pr Saliha Chbicheb & Pr Akram Belmehdi

18:00 - :

Free time - Networking Activities

**SUNDAY
16
AUGUST**

ENDODONTICS & ORAL SURGERY

8:30 - 9:30: Breakfast

9:30 - 12:30:

Thermoformed vs. Directly Printed Aligners – The Inflection Point in Modern Orthodontics (**Lecture & Workshop**).

Dr. Mona Abdeloissah & Mr. Souhail Benamou

13:30 - 15:00: Lunch

15:00 - 17:00:

3D Printing in the Dental Office: Practical Workflows for Every Clinical Need (**Workshop**)

Dr Nasr Allah Alouani

18:00 - :

Free time - Networking Activities

**MONDAY
17
AUGUST**

SOCIAL PROGRAM & GALA DINNER

8:30 - 9:30: Breakfast

9:30 - 12:30: Grand Social Program

Exclusive excursion across the main city landmarks

12:30 - 13:30: Lunch

13:30 - 18:30: Grand Social Program

Departure for an exclusive excursion to key regions around Marrakech

Guided Quad Bike tour through local trails and desert tracks

Camel Back riding through the desert

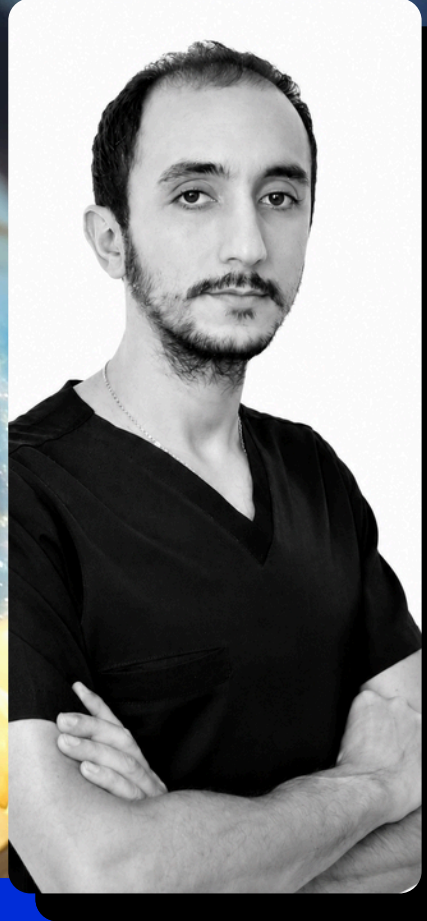

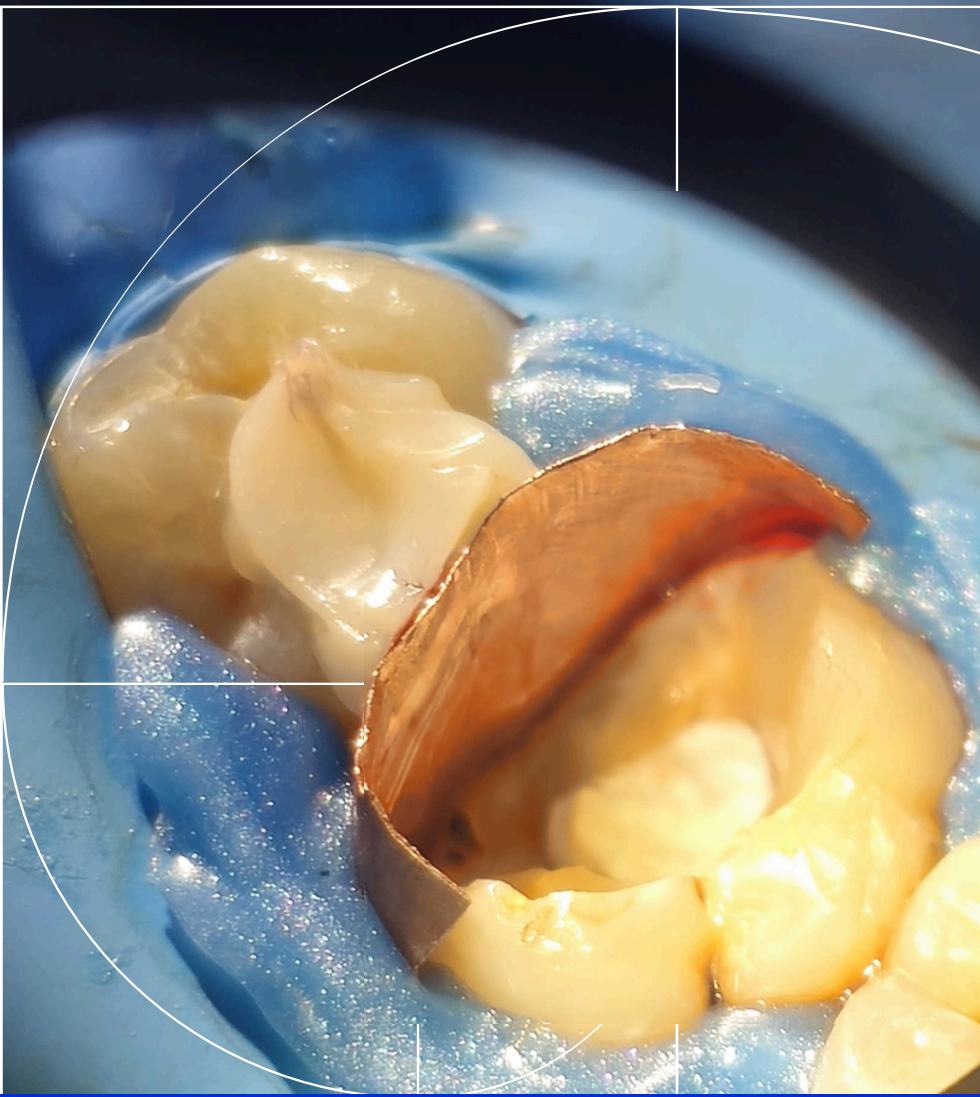

20h30 - : Gala Dinner and Closing Ceremony

Official Gala Dinner, presentation of Certificates, followed by a closing party to celebrate the successful completion of the program.

**TUESDAY
18
AUGUST**

DEPARTURE

Breakfast and hotel check-out. Airport transfers according to individual flight schedules.

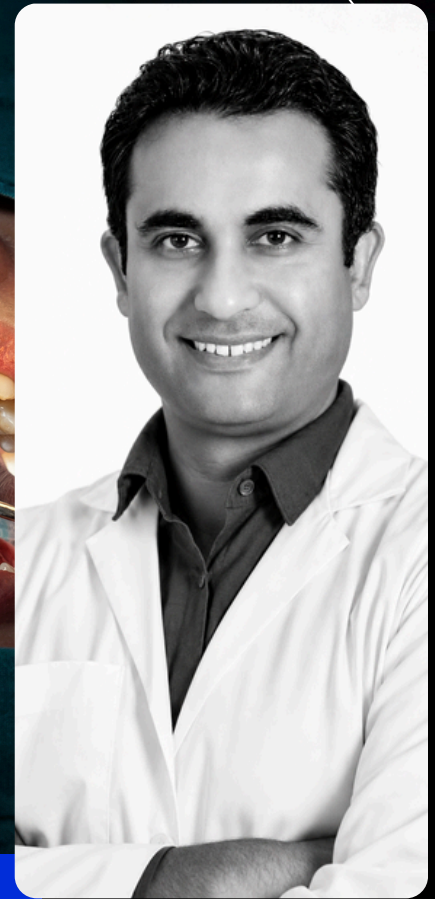

DEEP MARGIN ELEVATION DAILY WORKFLOW

A practical deep-dive into one of the most clinically relevant challenges in restorative dentistry. You will master the rationale, materials, and step-by-step protocol for achieving a supragingival margin, enabling adhesive restorations in cases that would otherwise require surgical intervention.

Key skills developed:

- Biomaterial selection for DME
- Isolation and field control strategies
- Composite placement protocols in deep cavities

THIRD MOLAR SURGERY: EVIDENCE-BASED APPROACHES FOR EVERYDAY PRACTICE

A structured, evidence-based framework for one of the most common and most anxiety-inducing, procedures in general practice. From radiographic interpretation to post-operative management, this lecture gives you a clear decision-making protocol applicable from your very next case.

Key skills developed:

- Surgical risk stratification and case selection
- Radiographic reading and 3D assessment
- Flap design and access strategies
- Post-operative protocol and complication management

FRENECTOMY WORKSHOP

Frenectomy is a commonly performed soft-tissue procedure indicated in the management of aberrant frenum attachments associated with midline diastema, gingival recession, oral hygiene difficulties, speech impairment, and prosthetic or orthodontic challenges. This workshop provides a practical, evidence-based approach covering clinical assessment, surgical indications, operative techniques, and postoperative management, with demonstrations and hands-on training to develop safe, effective execution in everyday practice.

Key skills developed:

- Clinical assessment and diagnosis of aberrant frenum attachments
- Surgical indications and case selection
- Operative techniques and step-by-step protocol
- Postoperative management for predictable functional and esthetic outcomes

THERMOFORMED VS. DIRECTLY PRINTED ALIGNERS

A forward-looking session on the current inflection point in aligner orthodontics. You will understand the clinical, material, and workflow differences between thermoformed and directly 3D-printed aligners and how to select the right approach for your patient and practice context.

Key skills developed:

- Digital treatment planning fundamentals
- Material properties and clinical implications
- Workflow comparison: thermoformed vs. printed
- Future perspectives in digital orthodontics

3D PRINTING IN THE DENTAL OFFICE

A practical, chair-side-ready session on integrating desktop 3D printing into everyday clinical workflows. From surgical guides to temporary restorations, you will leave with a clear implementation roadmap.

Key skills developed:

- Printer types and material selection for daily clinical use
- Workflow for printed temporaries and prosthetic restorations
- Smart chairside applications : splints, models, stamps and more
- Quality control, post-processing, and biocompatibility

SOCIAL PROGRAM

KOUTOUBIA

One of the most iconic landmarks of Marrakech, the Koutoubia Mosque and its surrounding gardens offer a peaceful and majestic introduction to the city.

SAADIAN TOMBS

Hidden for centuries and rediscovered in 1917, the Saadian Tombs are a masterpiece of Moroccan architecture. Intricate tilework, carved cedar, and sculpted plaster : a glimpse into the imperial history of Marrakech.

EL BADI PALACE

Once one of the most magnificent palaces in the world, El Badi stands today as a stunning ruin : vast open courtyards, sunken gardens, and panoramic views over the medina. An unmissable piece of Moroccan history.

QUAD BIKING

An adrenaline-fuelled ride through the trails and tracks of the Agafay Desert or Palmeraie. Navigate the landscape on guided quad bikes.

CAMEL RIDING

Experience the desert the traditional way, a camel ride through the iconic dunes and palm groves surrounding Marrakech. A uniquely Moroccan memory to take home.

GALA NIGHT AND CLOSING CEREMONY

The signature evening of IDCP Morocco 2026. An elegant gala dinner, official certificate presentation, and a closing celebration to mark the end of an extraordinary week.

PRACTICAL INFORMATION

Dates	14-18 August 2026
Location	Marrakech, Morocco
Venue	Ibis Palmeraie Marrakech
Language	English
Participants	Limited to 30 (15 international + 15 local)
Certification	Official printed certificate
Organizers	Ophelia International Dental Institute & IADS

WHO SHOULD ATTEND?

Dental Students (4th year+)

Looking to gain hands-on clinical experience beyond the university curriculum.

Recent Graduates & Interns

Seeking to refine skills and build an international professional network.

Young Practitioners (0-5 years)

Wanting to stay current with modern techniques and connect with global peers.

Open to international participants via IADS member associations worldwide.
